**Notes:**

- Family rates are 2 times the above rates if you and your spouse are both under age 65, or if you and your spouse are both over age 65.
- Age categories are based on the Retiree's age as of the Retirement Date.
- For a couple where 1 individual is over 65 (Medicare) and 1 is under 65 (Non-Medicare) ***before March 1, 2010***, the monthly rate is \$349.00 per month. For a couple where 1 individual is over 65 (Medicare) and 1 is under 65 (Non-Medicare) ***on or after March 1, 2010***, the monthly rate is based on the Retiree's age ***plus*** the Spouse's age ***plus*** the number of pension credits the Retiree had at the Retirement Date.
- Rates will change based on the individual's birth date. For example (based on the schedule above), if an individual is 61 years old, has 35 credits, has a birth date of June 15<sup>th</sup> and is paying \$248.00 per month, then effective June 1<sup>st</sup> (the month in which he reaches age 62) his monthly premium will decrease to \$164.00 per month. Individuals are no longer "locked" into a rate for the entire year based on their age as of March 1<sup>st</sup>.
- Future rates will be based on plan costs.
